

Appendix: Polymarket accounts sample seed events

Pew Research Center's [analysis of Polymarket trading behavior](#) is based on 11,989 accounts. To identify these accounts, we first selected 10 Polymarket events that had high trading volume as of early May and represented a wide range of topics and question types. We then collected the wallet addresses for accounts that had placed the 4,000 most recent trades on those events.

The events we used are:

- [236840](#): US Iran ceasefire by...?
- [340266](#): What will Trump post this week? (April 6 - April 12)
